BESPOKE CONSOLES

Thank you for your purchase of our Bespoke Bathware Console. Below, you'll find the installation guide.

All our Bespoke Bathware consoles are custom-made. While they come pre-assembled, they are not fully secured and will require final adjustments on-site. Please review our terms and conditions for care instructions and warranty details.

Installation Guidelines:

1. Consoles must be securely fixed to the walls; they cannot be freestanding.
2. Mounting screws are provided to secure the frame to the wall.
3. Please note, screws or installation tools and materials to support stone or basins above the console are not included.
4. Consoles do not serve as structural supports for stone and/or basins.
5. Mount the consoles only from the provided mounting brackets.
